

**Cordless for your
convenience**

**Aastra DECT
Cordless Phones and Base Stations**

Ericsson (now Aastra) - the ideal business partner

- » Introducing the first carphone in 1956
- » Supplying pagers for 25 years
- » Launched world's first GSM digital mobile phone in 1992
- » Pioneer in the DECT standard
- » Right mix with wire-line, DECT and GSM
- » Market leader in cordless solutions
- » Providing solutions matching your needs

Coverage For Every Work Situation

BS3xx Base Stations

- » Compact
- » Lightweight
- » Easy to install
- » Low power consumption

BS3xx Base Stations

BS330

- » Default base station
- » 8 simultaneous calls per base station

Range BS3xx

- » Typical 30 meter indoors
- » Up to 300 meter outdoors

BS340

- » To provide directional coverage with special antennae
- » 8 simultaneous calls per base station

Outdoor housing for BS3xx

- » For all outdoor applications

BS370 Wireless Relay Station

- » Reduces cabling cost for areas with low to medium traffic
- » Connects with a radio link to a 'host' base station (BS330 or BS340)
- » In total up to 8 simultaneous calls can be made over the two coverage areas of the host base station and the BS370; in the BS370 coverage area, a maximum of 6 simultaneous calls applies
- » Powered by local power adapter
- » With external antennae inputs for directional coverage
- » Optional 3rd antenna input for radio link to host base station

External Antennae for BS340 and BS370

Omni-directional Single Antenna

- » Coverage mainly in horizontal plane
- » Up to 600 meter range outdoors

Directional Dual Antenna

- » Coverage mainly in one direction
- » Up to 750 meter range outdoors

Directional Single Antenna

- » Coverage mainly in one direction
- » Up to 1000 meter range outdoors
- » Smaller radiation angle compared to Directional Dual Antenna

DT690 – The choice for the highly demanding office user

- » Color display
- » Easy to use display with intuitive icons
- » Bluetooth support (DT690 BT)
- » Virtual SIM
- » IP44 classification allows the wipe with damp cloth
- » Supported by Central Portable Device Manager (CPDM)
- » Phonebook for 1000 downloadable entries*
- » Local phone book with 250 user entries

Blue text = features in addition to DT590 model

*Available in Q1 2009

DT690 – More Highlights

- » Support for 18+1* languages
- » Hands free speaking function
- » Vibrating alert
- » Headset connector
- » Sending and receiving of messages
- » DECT GAP/CAP compliant (supporting MX-ONE, MD Evolution and BusinessPhone)

Blue Lines = features in addition to DT590 model

*Available in Q1 2009

DT690 – More Features
